

# **DOES CASE/UAW THINK MONEY GROWS ON TREES?**

If the union comes in, grad student pay will have to rise just to make up for the dues paid to the UAW. When department budgets get crunched, how will they make up for it? Will they replace graduate student RA's with postdocs? Or fire support staff? Or will the university raise tuition for undergrads and unfunded grad students?

Someone is going to bear the cost of the union. Why isn't CASE/UAW telling us who?
